

Amendments to the Claims

1. (Previously presented) A method comprising:
a user accessing a global computer network;
the user accessing a list of celebrities;
the user selecting a particular celebrity;
for the selected celebrity, the user selecting a time designation associated with one or more photographs of the selected celebrity and one or more additional persons;
the user viewing at least one such photograph displayed responsive to such selection of such time designation; and
the user causing a print of said photograph to be made.
2. (Previously presented) The method of claim 1 further comprising:
the user accessing an event-specific site or page prior to accessing the list.
3. (Previously presented) The method of claim 1 further comprising:
the user accessing an organization-specific site or page prior to accessing the list.
4. (Original) The method of claim 1 wherein said print is printed on a printer connected to a computer of the user or on a local network associated therewith.
5. (Previously presented) The method of claim 1 wherein said print is printed remotely and the method comprises the user providing instructions for delivery of said print.
6. (Previously presented) The method of claim 5 wherein said instructions comprise instructions for delivery of said print to a person who is among the one or more additional persons in the photograph.
7. (Previously presented) The method of claim 1 further comprising:
the user providing a payment for said print; and

the user receiving a receipt for said payment.

8. (Original) The method of claim 7 wherein said receipt indicates that at least a portion of the payment is tax deductible.

9. (Previously presented) The method of claim 1 further comprising the user identifying a name of at least one person of the one or more additional persons and specifying that the print bear the name of the identified at least one person and be autographed by the selected celebrity.

10. (Currently amended) A method comprising:
via a publicly-accessible computer network:

for a given public figure, permitting a user to select a photograph of said public figure from a plurality of photographs of said public figure based upon identifying information comprising information associated with the time or time period the photograph was taken;

permitting the user to purchase a copy of the selected photograph; ~~and~~

permitting the user to specify that the photograph copy be autographed by the selected public figure;

permitting the user to select the selected public figure from a group of public figures;

permitting the user to download a first quality of image of the selected photograph without charge; and

permitting the user to purchase a second quality of the selected image, different from the first quality of image.

11. (Original) The method of claim 10 wherein said identifying information comprises: information identifying a particular camera or a particular photographer or a particular location from a plurality of cameras or photographers or locations at a given event.

12. (Canceled)
